## Pharmacology Made Easy

## Pharmacology Made Easy

This interactive, media-rich tutorial was designed to teach you one of the most difficult subjects in nursing school. This program contains 13 educational modules, many of which directly address the effects of medications on the human body. Medications are presented according to their medication category. One of the special features of this program is the online tutorials, featuring video case studies of medications used in clinical settings.

By the end of this tutorial, you will be more knowledgeable about medication safety and better prepared for pharmacology in nursing.

### Modules include:
